# NEWPORT DAILY NEWS

SATURDAY, February 8, 1848.

Mexico and the West Indies.

The following news has been received from the interior of Mexico: There were rumors at Yen Cruz that several Generals in the Mexican army had pronounced against the government, and fears are entertained that an attempt might be made by them to create a revolution. It was reported that General Porfirio Diaz would soon be appointed Minister of War.

In the Mexican Congress a bill revising the law had passed. A bill was introduced to abolish the death penalty, but it was defeated.

Gen. Benito Juarez has arrived at the capital. It is rumored that he intended to resign the command of the third division of the army.

Mexican travelers in Guatemala are ill-treated by the inhabitants, whose hostility has been excited by threats of serious invasion.

A project for uniting Mexico with the United States by a system of railroads has been placed in the hands of a commission who are to examine the plan and report it to the Government on its feasibility.

Companies are forming to develop the goldmines which have recently been discovered in Oaxaca, and which are reported to be very rich.

**HAVIL**.—Haytien advices of the 17th state that the French clergy had excommunicated Salavane, on the ground that he had established a sort of fetish religion. The British government had refused to recall the Irish legation at the demand of President Salavane. There was a general dissatisfaction, and even consternation at the rumors of Senator Pujol's mission to the United States for the sale of Sanama.

Recent testimony shows very clearly that after all the Arctic circle spans one of the finest parts of the globe. Gen. Rousseau says Alaska is all that Mr. Sumner's fancy ever painted it, and that as to Vancouver's Island which is, to be sure, somewhat to the South, "the temperature is the most agreeable and most delightful I have ever known"—being "never too cold at any time for comfort and never hot," though "never" seems rather a strong word, considering how short a time the General has been there. A voyager says he has discovered a polar continent which he calls Wrangell's Land, and that there is coal on it. Whereupon another voyager says that he has found in the icy regions of cape Lisburne, "birds resembling the American partridge, very abundant," and that he collected a "beautiful bouquet of great variety of flowers in full bloom there." With birds and flowers for summer, and coal for winter, the polar regions ought to become quite desirable—especially when rents are so high as they are at present in New York. *N. Y. Times*.

**AN ENGLISH REFORMER.**—Lord Ranelagh, an English nobleman, has been for some time devoting himself to the task of bringing about a reform in the management of the railroad system of that country. Lord Ranelagh proposes that in the matter of smoking on the cars, "smoking should be the rule, and not, as it now is, the exception. His theory is that a man should have a right to smoke anywhere on the cars except in those cars which may be reserved for persons who do not smoke. The result of all this is that his lordship, being a man of practice as well as of theory, smokes in the cars whenever on a journey, in defiance of the rule, "No smoking allowed," and has been several times arrested and fined for the offense. In the meantime, however, the indefatigable reformer goes on smoking in full defiance of the laws made and provided for the better government of railroad travel.

**THE SEARCH FOR DR. LIVINGSTONE.**—A member of the Livingstone Search Expedition, which some months ago set out to look for the last American explorer, has returned to England with findings which dispense his having been murdered by the natives near Lake Nyassa. Investigations have brought to light the fact that Dr. Livingstone had passed beyond the spot which had been mentioned as the scene of his killing, and that the natives who were with him on his journey had deserted him because he was about to penetrate into hostile country. As yet, however, there is no definite knowledge of the present whereabouts or condition of the adventurous traveler. The last accounts placed a white man—supposed to be Livingstone—at Lake Tanganyika and since then his progress has been involved in mystery.

**THE NEW YORK REPUBLICAN STATE CONVENTION ASSEMBLED AT SYRACUSE.**—Wednesday, for the purpose of choosing delegates to the Presidential Nominating Convention. A full representation of the State was present. A prominent organization was effected by the selection of Chas. H. Van Wyck as President, and on taking the chair that gentleman addressed the Convention at length. Addresses were also made by Lieut. Gov. Woodford, Lyman Tremain, Horace Greeley and others. The platform adopted indorses Gen. Grant and Gov. Fenton for President and Vice-President. Delegates to the National Convention were chosen, and the Convention adjourned.

**INDIAN MURDERS IN TEXAS.**—The Texas papers give an account of a brutal Indian raid on the citizens of Cook county, in that State. It appears that on Sunday, the fifth ult., about one hundred Indians appeared in that country, and, dividing into squads, commenced the work of murder and robbery. During Sunday and Monday they killed a Mr. Long, a young man named Leatherwood, Mr. Mense, and it is supposed, Mrs. Carrollton, who is missing. Mr. Thomas Fitzpatrick and wife, and Arthur Parkill. Three of Fitzpatrick's children, Miss Carrollton and Mrs. Edward Siegert, were captured. Mrs. Siegert and Miss Carrollton escaped, however, before the Indians left the country, but they killed the infant child of the former.

## GENERAL ASSEMBLY.

### JANUARY SESSION AT PROVIDENCE.

Friday, Feb. 7.

The Senate met at 11 o'clock, His Honor the Lieutenant Governor in the chair.

A message was received from the House communicating business which was disposed of as follows:

Report of the joint special committee on the alteration and revision of the State House, which was referred to the committee on finance:

Resolution relative to a breakwater at Block Island, and the appointment of a joint special committee was read, and the committee ordered to be raised; Messrs. Bell and Stevens were appointed on the part of the Senate.

An act authorizing the Mayor of Newport to offer rewards for the arrest and conviction of offenders guilty of high crimes, which was referred to the committee on the judiciary.

Mr. Curran, for the committee on the judiciary, reported back from the House, an act to enable aliens to take, hold and convey real estate, which was passed in concurrence.

Also an act in amendment of Chapter 213, "of offenses against the public peace," from the House, which was passed in concurrence.

The act makes it a penal offence to raise a false alarm of fire.

Mr. Reynolds, for the committee on accounts, reported a resolution to pay bill for fitting up office for the clerk of the Court of Justice in Newport, which was passed.

Adjourned to 1 o'clock Monday morning.

### House of Representatives.

The House met at 10:30 o'clock, Mr. Speaker Van Zandt in the chair.

Mr. Shefield called up from the table the act in addition to Chapter 109, Title 24, "Of the Estates of persons dying without heirs." The act provides that whenever any town or city shall have been in possession of any real estate which was of persons who died without known heirs and shall have been held by such towns for a period of thirty years inclusively, then, such town, on applying by bill in equity to the Superior Court, and due notice being given, can sell the real estate and hold the proceeds and income of such sales in the same manner as if this act had not been passed. The act was read and passed.

Mr. Weedon, from the finance committee reported back the petition of John G. Williams for reward for the arrest of Chas. Hoxie, one of the Charlestown murderers, with a recommendation that the following resolution be adopted:

*Resolved*, That the Sheriff of Washington county is hereby directed to tender to John G. Williams the sum of eighty-three dollars and thirty-four cents for his expenses in arresting Charles Hoxie, and he refusing to accept that sum, to return the money in his hands to the Treasury.

The resolution was passed.

Mr. Shefield called up the act in addition to Chapter 109, "of administration of testate and intestate estates."

Mr. Shefield states that the object of the act is to enable the administrator or executor to probate in any other State to apply to a Court of Probate in this State, for leave to sell personal property, without incurring the expense of being appointed administrator under our laws.

The act was read and passed.

**KANSAS TRADE WITH TEXAS.**—A Leavenworth paper says a very extensive trade exists between that city and Texas. The cattle trade is large and rapidly increasing, though a reform in the management of the railroad system of that country. Lord Ranelagh proposes that in the matter of smoking on the cars, "smoking should be the rule, and not, as it now is, the exception. His theory is that a man should have a right to smoke anywhere on the cars except in those cars which may be reserved for persons who do not smoke. The result of all this is that his lordship, being a man of practice as well as of theory, smokes in the cars whenever on a journey, in defiance of the rule, "No smoking allowed," and has been several times arrested and fined for the offense. In the meantime, however, the indefatigable reformer goes on smoking in full defiance of the laws made and provided for the better government of railroad travel.

**RAILROAD ACCIDENTS.**—The New York freight train from Boston, due here at four o'clock yesterday afternoon, was disabled near the Charles street crossing, by the breaking of a car wheel. Three cars were thrown from the track, but after some delay the road was cleared, the train arriving in this city within one car.

The Stow Line train from New York, due here at half-past seven o'clock last evening, met with an accident on the Stonington part of the road last night, near the Charlestown switch. It seems that the tender somehow got off the track, and being under full headway it ran along the ties nearly an eighth of a mile before it could be stopped, during which time the springs of the forward truck were broken. After a delay of about an hour, the damage was temporarily repaired, and the train moved on. It had not proceeded far, however, when it was again thrown off the track, this time in consequence of a defective rail which broke in three pieces as the train was passing over it. In the course of time the train was again got upon the track, and delivered its passengers in this city at half-past twelve o'clock last night, four hours behind time. *Prov. Herald*, 6th.

The Fall River *Newspaper* learns that the Young Ladies' Seminary at Norton was broken into, Sunday night last, between 8 and 9 o'clock, by three men. The landlord was assaulted, and in his tussle with the rascals lost his clothes badly torn, but the men were forced to retreat. The young ladies were considerably frightened.

**SEAS CLAMS.**—The Yarmouth *Register* says the citizens of Chatham have recently discovered embedded in the sand on the South Shore of that town, between Monomoy and Harwich, a large quantity of sea clams, and during the past two months from seventy-five to one hundred men have found almost daily employment in digging them. They are valuable bait for fishermen, and hundreds of barrels have already been marketed at Gloucester and other fishing ports. They are found in large numbers, and many of the men employed have realized \$5. per day.

A "long lost brother" romance has just occurred in Cleveland. The chap with the strawberry mark on his left arm was stolen from a Mormon emigrant party, more than twenty years ago, by the Indians. He escaped a few years ago, served in the Confederate army, and at last turned up in Cleveland, O. His brother, who had meantime grown up into a Mormon Elder and was on East in search of converts, met him in a drinking saloon and immediately recognized him by his nice taste for whisky, fell into his arms, embraced him and straightway carried him off to Utah.

The Baltimore American learns that orders have been received at the Baltimore Custom House, direct from Washington, requiring all the employees to subscribe money to be used to promote Democratic success in the election shortly to take place in New Hampshire. The amount to be levied upon each officer is specified, and a failure to pay will no doubt entail dismissal.

The association formed to erect a monument to perpetuate the memory of Abraham Lincoln, announce that of the \$200,000 required to erect a monument on the plan they have adopted, they have \$164,000, and that if the remainder is not raised by April 14, they will reduce their plans, and build one the cost of which will be covered by the money that may be on hand.

**GEN. GRANT.**—It is in contemplation to hold a meeting in this city next week for the nomination of Gen. Grant for the Presidency. It is evident he is the people's candidate, and we are pleased to see that the people are moving in advance of the politicians, and are selecting their own candidate for this high and responsible office. Let us have the meeting irrespective of party, and keep step with the true men of the country, who are moving in mass in the same direction.

A Paris Princess has just paid \$20,000 for a single ball dress.

## ABOUT HOME.

**Exhibition.**—The schools of the evening school had a declamation last evening. A number of them "spoke pieces" and made their debut as orators. The class formerly taught by Miss Townsend presented her with a handsome engraving as a token of appreciation of her services for their benefit.

**ACCIDENT.**—While a party was sliding down Bowery street about noon to-day, two boys named Austin and Neil, while walking up the street were met and tripped up by a sled coming down. The Austin boy fell on his head and was taken up insensible and Dr. Butler was called to attend him.

**SHANAHAN'S OPERA HOUSE.**—The farewell performance of the Boston Theatre Company will be given this evening, when the great play entitled "The Streets of New York" will be brought out with new scenery, &c., and in a style hitherto unsurpassed.

Also an act in amendment of Chapter 213, "of offenses against the public peace," from the House, which was passed in concurrence.

Mr. Thorpe, Miss Ada Gray, Miss Clever, Messrs. Leman, Lewis and others are in the cast, and it will be, undoubtedly, a most superior entertainment.

The act makes it a penal offence to raise a false alarm of fire.

Mr. Reynolds, for the committee on accounts, reported a resolution to pay bill for fitting up office for the clerk of the Court of Justice in Newport, which was passed.

Adjourned to 1 o'clock Monday morning.

### Vacations.

The public schools of this city have a vacation next week.

### BROWNS UNIVERSITY.

The Corporation of Brown University held a special meeting in addition to Chapter 109, Title 24, "Of the Estates of persons dying without heirs."

The act provides that whenever any town or city shall have been in possession of any real estate which was of persons who died without known heirs and shall have been held by such towns for a period of thirty years inclusively, then, such town,

on applying by bill in equity to the Superior Court, and due notice being given,

can sell the real estate and hold the proceeds and income of such sales in the same manner as if this act had not been passed.

Mr. Thorpe, Miss Ada Gray, Miss Clever,

Messrs. Leman, Lewis and others are in the cast, and it will be, undoubtedly, a most superior entertainment.
